Career Objective

Looking to start my career in software development in a challenging environment where I can apply what I have learned, solve real-world problems, and continuously grow as a developer. I aim to contribute with a problem-solving mindset while building reliable solutions and becoming a dependable software professional.

Technical Skills

- **Programming Languages:** Java, C, Python, JavaScript
- **Frontend & Mobile:** React.js, React Native, HTML, CSS
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Cloud & DevOps:** AWS, Docker, Git, GitHub
- **Tools:** Postman, Antigravity

Projects

Smart Clinical Reporting Workspace - [Repo](#) | [Live](#) 2026

React.js, TypeScript, Tailwind CSS, FastAPI, Supabase, PostgreSQL, Gemini API, Groq API

- Developed an AI-powered clinical reporting platform for creating accurate and structured medical reports
- Built a responsive frontend using React.js and Tailwind CSS with an AI-assisted clinical editor
- Integrated Gemini and Groq APIs to provide inline ghost-text completion and contextual writing assistance
- Implemented report management and AI workflows using FastAPI and Supabase with PostgreSQL

Prompt Forge AI - [Repo](#) | [Live](#) 2026

React.js, Tailwind CSS, Python, FastAPI, Gemini API, Groq API, Hugging Face

- Developed an AI-powered prompt optimization platform for generating structured and high-quality prompts
- Built a responsive frontend using React.js and Tailwind CSS with real-time processing
- Integrated multiple AI models (Gemini, Groq, Qwen) to generate and compare prompt variants
- Implemented benchmarking and speech-to-text features for improved usability

Enquiry Chatbot - [Repo](#) | [Live](#) 2025

Python, Flask, React.js, TensorFlow, NLTK, Keras

- Built a full-stack AI chatbot using NLP and neural networks for intent classification
- Implemented text preprocessing with tokenization and stemming using NLTK
- Trained and deployed a TensorFlow/Keras model for real-time response generation
- Deployed and monitored the application on Render cloud with performance optimization

Experience

Mobile App Developer Intern | FeOS Technologies Jun 2026

- Developing a service marketplace mobile application using React Native and Node.js.
- Implementing onboarding, authentication, profile management, and API integration workflows.
- Building reusable UI components and optimizing application performance and user experience.

AI Project Expo Coordinator | Government College of Engineering, Erode Mar 2026

- Coordinated the AI Project Expo, managing project presentations and event execution.
- Collaborated with faculty and student teams to ensure successful planning and delivery.

Education

Bachelor of Engineering in Computer Science and Engineering CGPA: 8.43

Government College of Engineering, Erode, TN

2023 – Present

Certifications

- Java Certification – HackerRank (2025)
- Problem Solving Certification – HackerRank (2025)
- Programming Foundations with JavaScript, HTML & CSS by Duke University – Coursera (2025)
- Crash Course on Python by Google – Coursera (2025)
